Alma Mater

Orange groves o'er spread her campus
Chimes her hymns intone,
India greets across the garden
Southern's mystic throne.

Florida Southern, thee we love;
Thee we'll never fail
Hail to thee our alma mater,
Hail to Southern, Hail.

Stately walls alone can never
Compass learning's goal
Heart to heart must pass the token
Soul inspirit soul.

Florida Southern, thee we love;
Thee we'll never fail
Hail to thee our alma mater,
Hail to Southern, hail.

President Reuschling

From first look, anyone can tell that Dr. Thomas Reuschling is one of the kindest men they will ever meet. His face has years of worry encased in it; his eyes, years of joy.

Named president in 1995, Dr. Reuschling believes in values. He believes that every student should have a fun time while at Florida Southern, but he also believes in the power of academia. This year, Dr. Reuschling and the rest of the faculty at Florida Southern implemented a freshman EXL class, the first of its kind at the college. It was meant to give the freshmen more of a chance to grow as a unit and to get a full experience of Florida Southern. Some classes frankly discussed sexual matters, others more scholarly material. All of this came in the name of the *Freshman Experience*.

This year, Florida Southern also hit the 1,800 mark in enrollment, something rarely seen in the past. Even with the less than stellar performance of the stock market in the past year, enrollment is up, and he plans to keep it that way, though don't expect our school to go over 1,800.

Perhaps the biggest initiative before Dr. Reuschling right now, though, is the looming construction of a residence hall, something students have been dreaming of for years. Though construction has been stalled a bit so far, he's made it obvious where this lies in the list of his priorities: at the top.

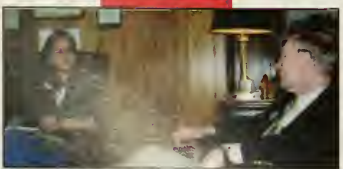

"I hope all of us on a year to year basis will recommit to having this be the most caring and personal environment it can be."

Still, the president was hit hard this year, as we all were, by the death of two of our

own. Chris McConnell and Jerrod Hall died during the year, something Dr. Reuschling calls a "sobering" experience. He hopes that their deaths cause reflection in the hearts of the students and that each student will make the "most of their own life."

Overall, Dr. Reuschling faces each day with a healthy appreciation for life and for Florida Southern College. He's the man who loves student performances and our annual Homecoming Celebration. He's the man who always cares. He's the man that we have all seen in the cafeteria when we are eating, walking around trying to make sure we are all doing OK. Don't worry, sir, we are.

Jerrod Hall

April 30, 1982 - October 28, 2002

To some, he was "Brown Eyes." To others he was their "predictable golfing surfer." To everyone, he was a friend, a brother, and a son. He shared many things in common with many people. Jerrod was a senior Chemistry major. He also acted in the Risque Business production each fall for incoming freshmen. He served as Sports Editor for the campus newspaper, The Southern.

One thing is for sure, for all the people whose lives he touched, he is greatly loved and will be greatly missed.

*"Expose yourself to your deepest fear;
after that, fear has no power, and the fear
of freedom shrinks and vanishes.*

*You are free."
- Jim Morrison*

In loving memory...

Chris McConnell

May 12, 1984 - January 2, 2002

Chris McConnell was well-known, no matter where he went. He had played golf since anyone could remember, as a member of his high school team and the Florida Southern team. Everyone who knew him could see how happy he was.

He was a loving brother, a devoted son, and an incredible person. He was always the classiest opponent you would ever meet.

From all of us at FSC, we miss you, we love you, and we look forward to the day when we can see you again.

*"The meeting of two personalities is like
the contact of two chemical substances:
if there is any reaction,
both are transformed."
- Carl Jung*

December Graduation

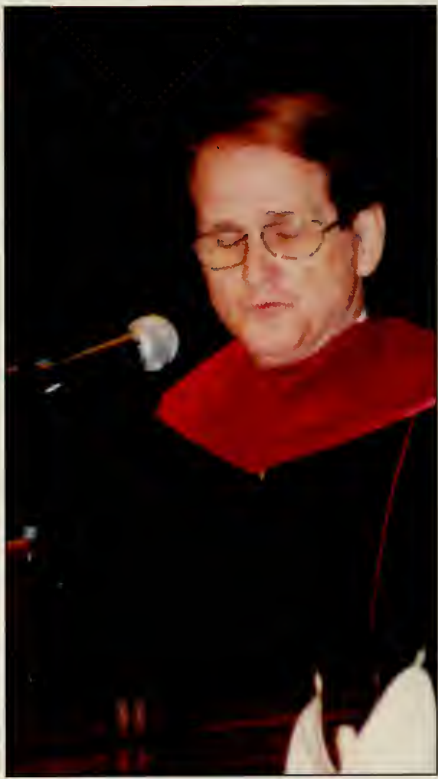

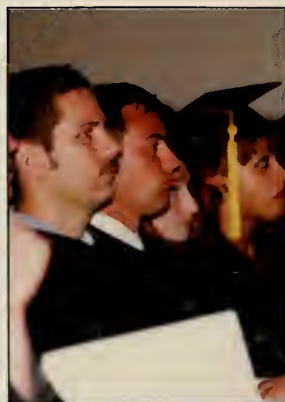

It seems like we all learned a lot in our four years; how to persevere, how to cram, how to spend all our money on a single book for a single class. Yet, we hate to see it go. There is no way this experience is over.

Let us remember the good times, the sad times, and all those times in between when we were students at Florida Southern College.

Class of 2002, you'll be missed.

Graduation proceedings went off without a hitch in Branscomb Auditorium.

The Fall Commencement packed out Branscomb Auditorium.

Seniors

This is it. That last year when we all want to go, yet wish we could be this age forever. For some of us, we will miss this place called Florida Southern College. We've shared memories: Homecoming, athletic events, recruitment, and class. Others cannot wait to get away and move on with a life a little less full of the awful *c-word*.

Our senior year had style. There were fraternity parties and late nights at Lillian's. There were basketball games and intramural events.

Happiness is that state of consciousness which proceeds from the achievement of one's values. Lillian's. There were

- Ayn Rand ODK meetings and

Honors Weekend recruits.

Let's not forget the spirit of FSC. The fun, the mayhem, the forever unpredictable faculty, and the even more unpredictable students.

The year was... 1933

The year, 1933, was the 48th anniversary of Florida Southern College. Ludd M. Spivey was president, and all was well at FSC. Each class consisted of about 60 people, a varied mix of girls and guys, introverts and extroverts. The technology was a bit behind the times, but the students never cared. There were five sororities on this campus and four fraternities, none of which exist on this campus anymore. They were demure and classy, children of the flappers. They had notables; most attractive, best smile, most athletic. Looking at the old pictures, it hardly seems real; almost like a distant ship in the fog...

hardly visible, but leaving its mark.

The students of 1933 left their mark.

Just look at them... you'll see it.

History is the witness that testifies to the passing of time; it illumines reality, vitalizes memory, provides guidance in daily life and brings us tidings of antiquity.

Underclassmen

There is nothing like your first year at Florida Southern. It's all so new and fresh. By the time we get to our third year, most of us are ready for the fourth and final. Still, with a beautiful campus and accommodating residence halls, you can't complain too much. Many underclassmen are eager to get involved. They become involved in Greek life, student organizations, or, the most dreaded, student publications! With the promise of at least another year to go, we settle in for the long haul, more classes, more study time, and plenty more chances to hang out with the people closest to us. Ask most seniors if they're going to miss it, and they'll tell you how special it is. Most of us are ready to go shortly after we get here, but those leaving tell you to treasure it always. Pretty soon, it'll all be over, and the "real world," as scary as it is, will be right there waiting.

The end of one road leads to the path of another.

The year was...

1943

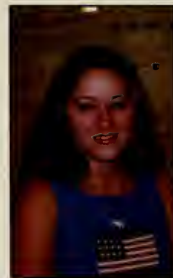

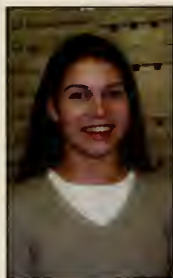

The year was 1943....The Eleanor Searle Drawing Room was new....Mainly girls attended the school due to World War II....The student play was The Man Who Came to Dinner by Kaufman and Hart....There was an Independent Women group....Miss Southern was the queen of Founder's Week....There was a Miss Senior pageant....There was a varsity football team....There was a Women's Intramural Board which regulated women's sports....Rat Week is when the Freshman had to do whatever the Upperclassmen told them to do....The members of the class of 1943 grew up in hard times, but they graduated from FSC only to prosper.

"Two roads diverged in a wood, and I --I took the one less traveled by, And that has made all the difference."

Administration

The administration at Florida Southern College has always worked to maintain dignity and honor in our school. Whether they are working hard in Student Life, Academic Life, or any other department on campus, they are always very involved in the lives of their staff and students. Some have been around for so many years they have become a part of the school's history. Others, who are newer, are becoming more and more part of the school landscape. Can you think of any meeting with an administrator that hasn't at least been cordial, even if you are getting in trouble. They work towards fairness in every situation and

"Learn from yesterday, live for today, hope for tomorrow." Florida Southern in
-Anonymous their everyday lives.

They have true Florida Southern Moc spirit.

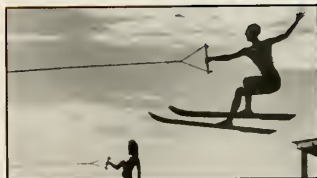

The year was...

1953

The year was 1953....There was a Home Economics major....The Cap and Gown club was a senior women's honorary society....The cheerleaders wore skirts below their knees....A crew team from Guatemala visited FSC for a race in Lake Parker....Mr. Joseph Fazzano served as Honorary Chancellor....Chapel service was held at 10:00 am....The school still had Senior Dances with live bands....There were five sororities and eight fraternities....FSC still had a football team....There were intramurals for the bow and arrow....Each year there was an event called Kampus Kapers, which showcased each club, much like a talent show....The students of 1953 will always be remembered.

Academics

Florida Southern might be well-known for its architecture, but people soon learn how great of an academic program we have as well.

Many departments on campus are focusing more on the individual now, as opposed to the group setting.

Things have become much more informal. There are trips off-campus just to hang out and compare notes.

There are late night study sessions hosted by professors, the best of which have pizza with them! Mostly, education is at a premium right now, with the professors focusing on what they can do to make the student understand, as opposed to just flunking those who don't get it immediately.

The whole atmosphere in each

"All men who have achieved great things have been great dreamers." academic department is much more
-Orison Swett Marden conducive to learning

now, and, believe me, we all appreciate that.

The year was... 1963

The year was 1963....Chubby Checker was a popular artist of the time....Greek Week was part of the Fall Festival held every year....There was an annual Christmas dance....The Southern was rated a top college newspaper in its enrollment division....Phi Mu Alpha was brand new on campus....There were full page ads devoted to oil in the yearbook....There was an annual Fall Festival....Miss Southern was Sandi Wodvarka.... The flattop was a popular male hairstyle.... One of the Varsity Baseball team's opponents was Yale University....The class of 193 will always be remembered for their accomplishments.

"The future belongs to those who believe in the beauty of their dreams."

Greek Life

Greek Life here at FSC is full of leadership, scholarship, and charisma.

Each sorority or fraternity has a life of its own, each of which celebrates all the things Florida Southern holds dear: intelligence, service to others, fun-loving attitude, and diversity. Each sorority and fraternity strives to raise money for local philanthropy and organizations, hosting such events as Miss Greek, Big Man on Campus, and Derby Days. There is no way to miss Greek life on this campus, and there is no

"When you choose your friends, don't be short-changed by choosing personality over character."

-W. Somerset Maugham

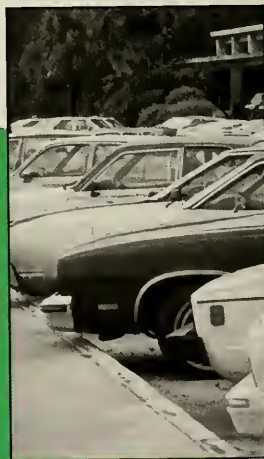

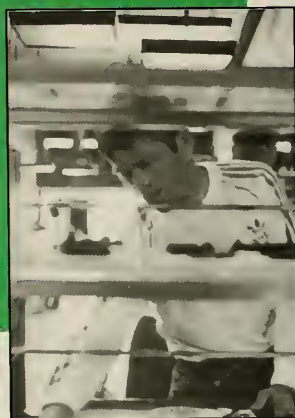

way to ignore any Greek life member. They each come with their own charm and personality.

While Greeks only make up roughly 13% of the school's population, their presence on campus cannot be denied.

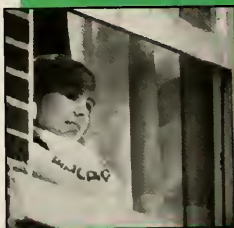

The year was... 1983

The year was 1983...Short shorts were popular for both guys and girls...Sorority bid-day was took place down by Lake Hollingsworth and if you were one of the lucky ones, you ended up in the lake...The Datsun was a popular car...Bangs were popular with the girls while the men preferred mustaches...Robert A. Davis was President of Florida Southern...Nursing was a major students could take...The Blues Brothers was a popular movie...Food at events was provided by the cafeteria, not Tom Hall...Magnum P.I. was popular with students...They took issues with parking...The students of 1983 were studious but fun-loving, carefree but involved.

"The essentials to happiness are something to love, something to do, and something to hope for."

Athletics

Athletics at Florida Southern is a major part of student life. Whether it is soccer, basketball, baseball, or etc, Florida Southern Students as well as area alumni and school supporters came out and cheered on the various teams. Throughout the years, FSC sports teams have held various championships and honors. Sports help to build school spirit as well as build national recognition for the school. Athletes from the various sports receive chances to travel the state as

FLORIDA SOUTHERN COLLEGE

2002-2003

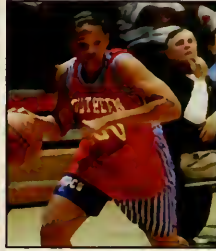

Men's Basketball

This years men's basketball team worked hard to achieve their 25-4 record. This year was their 8th consecutive trip to the Sunshine State Conference Finals, and their second trip under head coach Tony Longa. They went on to win the conference. Estimated attendance for the season reached over 13,000.

Women's Basketball

The Lady Mocs basketball team finished this season with a 23-6 record making them the top-seeded team in the conference. The team went on to the Sunshine State Conference Championship and brought home a win.

Baseball

This years men's baseball team was great. The team was 23-4 heading into conference play, and has played such teams as Rollins College, the University of North Florida, and the Detroit Lions - during Spring Training. This is their second season under coach Pete Meyer.

Softball

The Mocs softball team was around .500 through mid-March. The team is led by Chris Bellotto who is serving his 16th year as Head Coach. The team goals were to play to the best of their ability and to make it to the NCAA National Tournament.

Volleyball

The volleyball team finished the season with a 25-12 record. The team received a NCAA tournament bid for the 17th time in school history. Jenni Holste, Pamela Stein, Erin Pixton, and Jamie Johnson were all chosen for the All-Sunshine State Conference team.

Cheerleading

What would be a team without someone to cheer them on? It would be a team with lack of spirit and that is the purpose of the cheerleaders. The cheerleaders were seen at various sporting events throughout the year cheering and supporting the Moccasins to the best of their ability. Next year, they plan to continue supporting the various athletic teams.

Men's Golf

The men's golf team has had a good start this season. Steve Paramore with a 73 stroke average lead the team to two third place finishes so far. Stops have included invitations at Stanford University and Duke University as well as the University of Tampa and Rollins College.

Women's Golf

The women's golf team has started off with a terrific season. Sarah Coleson is leading the team with a 76.80 average. The Lady Moc Classic was held February 28th through March 2nd. The team competes against schools such as the University of Miami and Stetson University.

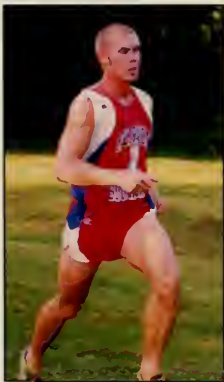

Tennis

The men's tennis team started off with a 3-1 season under new head coach Jeff Kutac. The team's season runs from February 1st to April 19th. Marc Becker leads the team as the number one player. The women's tennis team started off with a 3-4 season under head coach Vicky Martin. The team's season runs from February 1st to April 7th. Alexandra Costa-Corral leads the team as the number one player.

Cross Country

This year's cross-country teams had an excellent season. The men's team finished 5th at regional whereas the women's team finished 6th. This years schedule included invitations at the University of Central Florida, Eckerd College, University of Florida and others.

Men's Soccer

This year marked coach Kris Pahl's tenth season as Head Coach of the Men's Soccer team. The team started the year with a seven and seven season playing matches against teams such as Warner Southern College, University of West Florida, and Lynn University. Their season runs from late August to mid-November.

Women's Soccer

This year marked coach Christine Rizzieri's fifth season as Head Coach of the Women's Soccer team. The team played matches against teams such as University of Montevallo, Barry University, and Haverford College. Their season runs from late August to mid-November.

W a t e r s k i i n g

The year marked the fifty-fourth anniversary of the Water Ski team at Florida Southern. The team is the oldest active college water ski program in the nation.

This year both Lauren Bowman and Audrey Lundy won national titles. The team came in fifth overall at the National Collegiate Water Ski Championship.

Student Life

There is never a dull day, hardly a dull moment, at Florida Southern College.

One of the organizations is always planning something, ranging from this year's highly successful Brain Bowl all the way to Singled Out. You can count on FSC to be full of entertainment. Most campus events are hosted by the Association of Campus Entertainment, the same people who operate the campus movies. Still, it's not unusual to hear of events sponsored by other organizations. This year alone we had an all-you-can-eat pizza contest from Beyond, "Get Ripped," and numerous multicultural dinners. Yes, if you're

something to do at

Florida Southern

College, you need not

look too far. There is always something.

Final Notes

It seems sort of surreal that this year has passed. I half expect that I'll wake up in, oh, 20 minutes and it will all have been an elaborate dream. The thing is, I don't want this experience to be a dream. It was quite possibly one of the best experiences of my life, and it was far more than I ever expected it to be.

Yes, I thought all might be lost when I put out the notice for seniors to come take their portraits, and it seemed a flood gate of opposition opened. I never thought that period of the year would end, but, it's funny, I wouldn't trade that. The opposition we received made this one of the most exciting editions of *The Interlachen* ever produced. It seemed everyone wanted a piece of the action, and everyone wanted a piece of me.

When all else failed, I turned to our faithful advisor, Rick Kenney, who always assured me that it would get done, that people would follow through, and that, in the end, we would make the best book ever. I'm a little biased, of course, but I think we've achieved that. We wanted to produce a yearbook that chronicled the 2002-2003 school year at Florida Southern, and, I really feel we've done so.

Flip through the book; take it all in. If there's something missing, let me know. Just remember, this summer a supplement is coming your way to chronicle graduation and all the other things that are so important towards the end of the semester, things we'd otherwise miss.

As for the people who really made this book possible, keep reading.

Of course, *Rick Kenney*. Between a fledgling advisor and a fledgling editor, a book got made that no one thought could make it. Thank you, Rick, for believing in me and in this book.

My Robin, *Laura*. You have been a great friend and a fabulous Assistant Editor. Thanks for doing such a great job!

To my staff, there's no way this would have been done without you. Thank you for dealing with me and for doing your job better than anyone else ever could. We all knew this yearbook would be great, but I didn't realize how wonderful my staff would be.

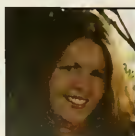

To the fabulous mailroom staff. Mike, you have helped us distribute yearbooks to the students, mail out yearbooks to graduates, and pass out countless letters, yet you never complained. Thanks for the support.

None of this would have been possible without the amazing people who have become my friends, and the even more amazing people who make up my family. Thank you all for being a good example of Godly living. There's nothing that has shaped me more than each of you, and you know who you are.

Mom, what else do I need to say? I love you. Thanks.

So, that's it. I hope *The 2003 Interlachen* meets your approval and satisfaction. And, remember, check your mailboxes during the summer for our little addition.
